

WOODFOLD

CRAFTING VALUE FOR MORE THAN 50 YEARS

CUSTOM WOOD SHUTTERS

50 years of crafting the world's finest custom shutters should say a lot about our commitment to American craftsmanship.

A half century might seem like a long time for anyone to do anything, yet it's the single most important reason we're able to craft such fine custom hardwood shutters right here in Forest Grove, Oregon. That much time gives you a chance to perfect things. Our workmanship, for example, an impressive product line and meticulous quality control. Or our unmatched value and above all, a designer's need for complete control over the sizes of shutters they spec. It's quite unique, really. When you get right down to it, that's also a good way to describe any company who's been crafting the finest hardwood shutters in the world for more than 50 years.

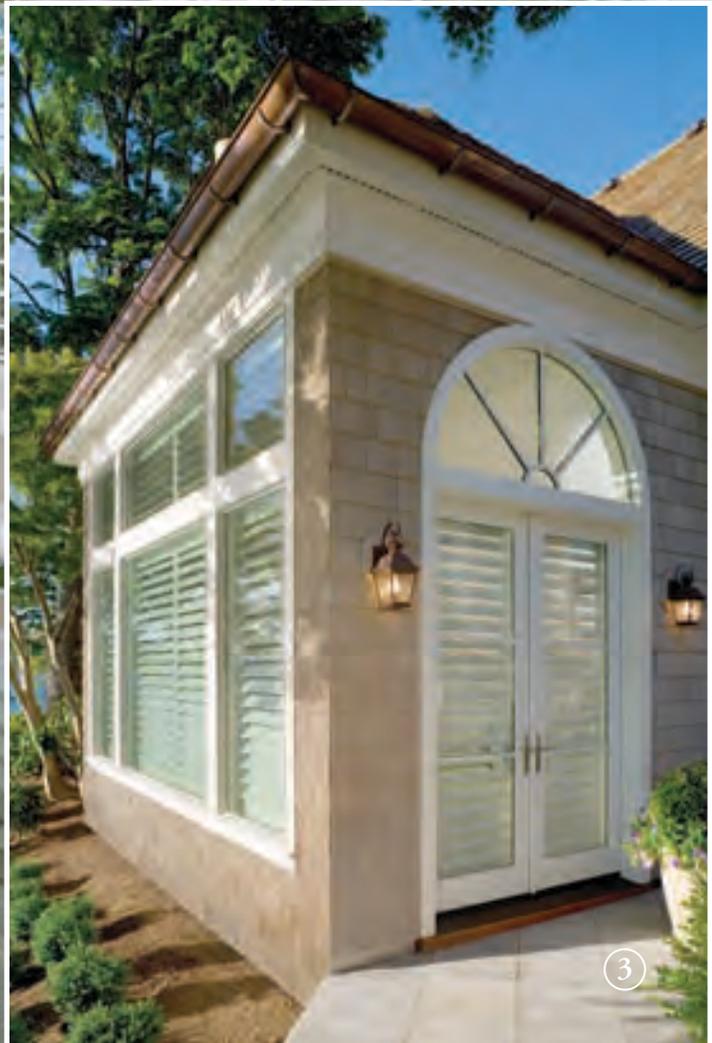

Employee-Owned

You're assured a precise level of workmanship, service and long-term value with each order because every Woodfold employee shares in the success of a job well done. What's more, all Woodfold products are proudly made in the USA, making it easier to do business with us and allowing for faster shipping to North American locations.

The Woodfold Guarantee

All Woodfold doors are custom made to fit each opening and warranted against failure due to defective materials or workmanship.

Woodfold Custom-Finished Hardwood Shutters

Woodfold hardwood shutters are custom built to fit any space and finished in-house with custom color matching for an unparalleled level of consistency. Also available with custom molding, you're assured they'll match existing décor and trim. Single panels up to 48" wide and 120" tall allow for one of the industry's largest viewing areas, and our louver's lifetime tension system ensures they won't flop or stick as the environment changes. Our wide range of louver widths include 1-1/4", 2-1/2", 3-1/2", 4-1/2" and 5-1/2" for a wonderful variety of traditional 1-1/4", as well as plantation ultra-wide views. 3" hinges are included on all panels to prevent sagging, and durable, stainless steel staples prevent tear outs. As an added plus, our three-week production cycle greatly minimizes delays to keep your project on schedule.

Western Red Alder

Sustainable, stable and exceptional finishing capabilities.

Woodfold uses sustainable furniture-grade Western Red Alder, renowned for its outstanding structural stability and finishing characteristics.

Woodfold Custom Wood Shutters

How Woodfold shutter packaging even protects your reputation.

We insist on individually cartoning our custom hardwood shutters inside shock-absorbing, tissue-wrapped foam to safeguard their arrival, thus assuring against unnecessary project delays.
