HomeSafe Shutters

Windows, Patio Doors, Porches, and Storm Protection

HomeSafe Rolling Shutters are the answer for home security, storm protection and weather protection-with good looks. HomeSafe rolling shutters have been installed all over the country. From coast to coast and inner cities to the suburbs, satisfied customers rely on the high quality and dependable operation of HomeSafe rolling shutters.

HomeSafe rolling shutters give you a variety of choices in curtain styles, materials and colors. These are custom selected to meet your specific application, security protection, and aesthetic requirements.

Security with Good Looks

Visual barriers provide protection against break-ins, but often are unsightly. QMI has invested time and resources to design a rolling shutter that looks great and is a security barrier. When they are mounted on the outside they are totally invisible from the inside.

Patio and French Doors

Patio and French doors offer easy opportunities for break-ins, are notorious for drafts, and cause decorating dilemmas. HomeSafe rolling shutters are the perfect answer for patio and French Doors.

Window Walls

Gorgeous window walls, some rising three stories, are the focal point in many new homes. They are impressive beauty living with them can be another story. They provide little protection from heat and cold. During the day, sun damage to your belongings can be devastating. At night, people feel as if they live in a fishbowl. And attractive window treatments

are nearly impossible to achieve.

HomeSafe rolling shutters are the answer. When they are down, they are neat and clean showcasing the beautiful design and woodwork of your spectacular window walls.

Screen Porches, Sun Rooms, Balconies

HomeSafe rolling shutters make these areas more livable and make you more comfortable. Rolling shutters become attractive walls when they are lowered, protecting you and your outdoor furniture from the wind and weather. In the up position, you'll enjoy the beautiful days, because your shutters won't even be noticeable.

Aluminum Roll Formed

AL2 and AL3 Now Available With High Density Foam

AL2 and AL3 Curtain Profiles are perfect for most residential applications.

SunSafe Shutters Provide Sun, Security and Golf Protection Without Taking Away Your View

SunSafe Shutters

Reduce up to 95% of the Sun's Heat and Damage, Protect from Golf Balls, You Can See Outside and Still be Protected, and Perfect Security Cover for Window Screens

SunSafe see-through roll down home shutters preserve your view while helping to ensure your security. Solid aluminum punched slat construction provides commercial grade security. SunSafe shutters are significantly better than traditional roll down sun screens or window screens which provide no security.

SunSafe shutters stop up to 95% of the sun's harmful rays—slashing energy bills by as much as 50% while reducing furniture and carpet fading/discoloration. SunSafe shutters supplement burglar monitoring service by deterring break-ins and its patented "End Retention" slat technology prevents shutters from being pulled or forced out of sidetracks.

Available in seven attractive colors, SunSafe shutters are perfect protection for large window walls, porches and patio doors. They can be integrated into walls or soffits in new construction, or with an attractive exterior box housing which can be easily attached later.

Punched Slat

Visibility, Ventilation, Security

SunSafe Punched Slat shutters are designed to give solid security with visibility. The punch pattern only allows 31% of the light to pass while still giving almost full visibility to the outside.

Extruded Aluminum/Single Wall

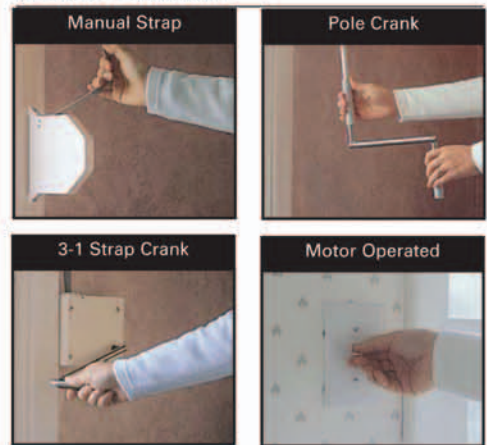

**PATENT
Pending**

Available Solid or Punched

AL6 is also available in solid profile for added security and privacy.

Standard color options from top to bottom are: — White, Brown, Ivory, Beige, Bronze, Grey and Clear Anodized

Introducing Our New Controls

The EZ Drive System

You can motorize your shutters at a fraction of the cost with our new EZ Drive System. Since it is all low voltage, there is no need for an expensive electrician and costly wiring. It is safe and easy for anyone to install.

Smart Drive

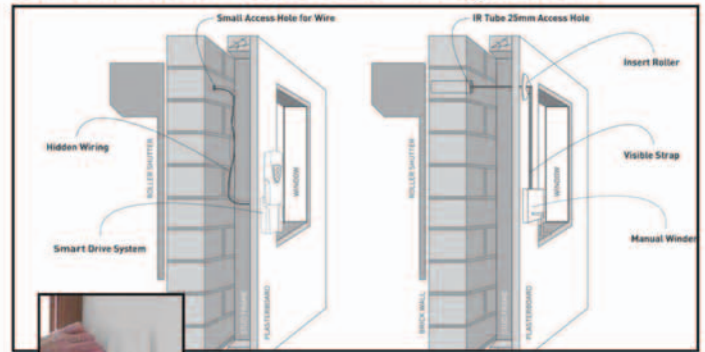

The SmartDrive Motor is a low voltage motor that easily installs on the inside of the shutter. Best of all it gives you peace of mind because your shutters can operate on a rechargeable battery, in case of an emergency.

The low voltage wiring can be easily installed on the interior of the building. No need for pipes or an electrician. The wiring connects to the SmartDrive's wall plate. The SmartDrive's Controller contains the batteries and slips easily into the wall plate enabling one SmartDrive Controller to control multiple shutters. It's Smart!

Operates in excess of 30 shutter operations in a single charge depending on the size of the shutters.
