Honeycomb Shades

HunterDouglas 

Shade Design

- Headrail embodies the honeycomb shape for an organic, refined style.
- Textured, matte finish presents a soft, sophisticated appearance.
- Coordinates with style and color of shade fabric
- Clean, transitional design that complements both modern and traditional home interiors
- Flush-mount end caps create streamlined look to the edge of the shade.

Shade Design

PowerView® Automation End Cap

- Automation system matches advanced functionality with an integrated look.
- Right-side control end cap offers a sleek design that flows into the headrail profile.
- Slimmer end cap design with integrated programming button

Shade Design

UltraGlide® Wand

- NEW improved Pull Cord Assembly (PCA) for smoother operation of retractable cord system
- The UltraGlide® wand offers upgrades in both form and function.
- The wand is soft-touch coated for a softened look with a teardrop-shaped handle providing perfect ergonomic operation.

LiteRise® Handle

- NEW durable handle features a stylish and sophisticated design.
- Integrated attachment creates seamless “floating” appearance in the window.

EasyRise™ Continuous Cord Loop

- With the continuous cord loop you can raise and lower your shades by simply pulling on the cord.
- Pulling down on the front of this continuous loop lowers your shade. Pulling down on the rear of the loop raises it.

Duolite® Design Option

The Duolite® design option seamlessly combines two different opacities for light control and privacy.

- Offered in an all-in-one design that transitions seamlessly from one fabric to the next
- Hidden moving rail creates an integrated look.
- Features a frosted handle when ordered with LiteRise® cordless system
- At a fraction more of the Top-Down/Bottom-Up price, Duolite shades are more affordable, especially in the EasyRise™ or UltraGlide® operating systems.
- EasyAdjust™ access via internal moving rail allows for simple leveling of the shade.

Duolite Pairing Guide

- Available in the Catalog section of your online tools account
- As the Duolite design option has become an increasingly popular choice, this guide will help drive the sale.
- Beautiful color-specialist suggested pairings for Duolite shades
- Helps consumers visualize fabric combinations.

Vertiglide™ with PowerView® Automation

- Vertiglide™ operating system and PowerView® Automation combine to provide energy efficiency, privacy, powerful performance and sleek design.
- Advanced automation technology for vertical window applications with a sophisticated battery-powered solution
- Dual operation feature is a combination of manual and motorized operation, allowing the user to control the shade with the remote, app, or simply operate by hand.
- Improved Grandover™ valance clip
- Available only in Duette® Honeycomb Shades (Applause® Honeycomb Shades offer manual operation only)

PowerView® Automation

Duette® and Applause® Honeycomb Shades featuring PowerView® Automation have the ability to creatively transform light and mood in the home with the press of a button or the tap on a mobile device—all while providing superior insulation at the window.

- Power your Duette and Applause Honeycomb Shades with the new, environmentally friendly rechargeable battery (standard battery wand and plug-in power options are also available). Please reference the PowerView Automation section of your reference guide for more information.
- Duette and Applause Honeycomb Shades offer the widest selection of fabrics, pleat sizes, constructions, opacities and design options in the motorized market.
- Schedule the operation of your Duette and Applause Honeycomb Shades to optimize your home's energy efficiency with the PowerView App.
- Available in sizes up to 174" x 144", depending on fabric and design option
- Offered in three pleat sizes ($\frac{3}{8}$ ", $\frac{3}{4}$ " and 1 $\frac{1}{4}$ ")
- Available in Standard, Top-Down, Top-Down/Bottom-Up and Duolite® design options
- Select fabrics and options available with Duette Vertiglide® shades, Duette LightLock™ with PowerView Automation and SkyLift™ systems

Duette® TrackGlide™ System

Our innovative TrackGlide™ system made for tilt/turn windows and French doors, keeps honeycomb shades in place.

- Shades stay in place when the window or door is being opened or tilted.
- Adheres to glass or window sash without damaging the window. No drills needed!
- Available in all Duette® ¾" fabrics
- Available with LiteRise® operating system in Bottom-Up and Top-Down/Bottom-Up.
- Will be offered in the PowerView® Automation operating system Fall 2020.
- TrackGlide hardware is available in four colors:
 - Brass, Bronze, Pewter and White (Black hardware available Fall 2020)

Duette® LightLock™ System

The Duette® LightLock™ system utilizes unique U-shaped side channels that overlap the front and back of the shade. The secret to achieving unparalleled room darkening lies within the patent-pending, side channel design, which features rows of specially shaped micro-ridges, optimized to absorb and deflect all incoming light while preventing the exterior light from seeping into the room.

- NEW bottom sill channel as a standard feature to further block exterior light for an improved room-darkening experience
- Recommended for inside-mount, fully recessed installations within minimal out-of-square windows only
- Offered in LiteRise® operating system and PowerView® Automation
- Available in all Duette ¾" room-darkening fabrics
- Side channels and bottom sill channel are available in Aspen White, Gardenia White and Bronze.
- LightLock system is easily removable for window cleaning.
- Suggested use: media rooms, bedrooms, children's rooms

Fabrics

Beautiful. Versatile. Energy efficient. The superior design of Duette® Architella® Honeycomb Shades creates insulating layers for added energy savings. Duette Honeycomb Shades offer fabrics with contemporary colors, patterns and textures appealing to a wide range of customers.

Duette® Sample Book

Our sample book makes selling Duette® Honeycomb Shades an engaging and simplified experience.

- Removable photo book introduces each fabric with detailed beauty shots and lifestyle photography.
- Fabric swatch decks are available in vertical orientation; a more streamlined way to showcase Duette fabrics.
- Face of fabric swatch decks include fabric, color names and numbers for easy selection when ordering.

Duette Hardware Color Guide

- This functional color tool guide integrated into the 2019 sample book includes color reference for all rail color options with corresponding fabrics.
- The tool guide ensures rail color-coordination or the decision to override a default hardware color when pairing horizontal and vertical products in a home.
- A hardware color override can be applied to any color-coordination default at no additional charge.

Fabrics and Refreshed Colors

- 15 fabric collections, including Alustra® Duette offered in contemporary colors, patterns and textures appealing to a wide range of customers
- A majority of fabric palette colors are now offered in all pleat sizes and opacities:
 - ¾" and 1 ¼" pleat sizes (¾" pleat size limited to six colors in Classic™ fabric collection)
 - Light-filtering and room-darkening opacities

Applause® Sample Book

Legendary Hunter Douglas quality and a streamlined selection process. The beauty of Applause® Honeycomb Shades is inherent in every thoughtful detail, including five fashionable fabric collections. Experience the touches that make a house even more of a home. All from the makers of Duette®, the original honeycomb shade.

- Removable photo book and hardware color guide

Applause and Duette Honeycomb Shades share the same headrail design and operating system touchpoints.

- UltraGlide® with wand
- EasyRise™ with cord tensioner
- LiteRise® with integrated handle
- PowerView® Automation with enhanced motor technology
- Duolite® option in an all-in-one design that transitions seamlessly from one fabric to the next
