

PowerView®  
Automation

HunterDouglas 

## Smart Home. Smart Living.

PowerView® Automation Has  
You Covered.

- The PowerView® Hub and Repeater's sleek design blends seamlessly within any home interior for beautifully discreet control.
- WiFi connectivity for the PowerView Hub allows for flexible placement in the home.
- Integrate shades with a variety of third-party control devices and systems through cloud-to-cloud and IP integration.
- Innovative technology allows the addition of multiple Hubs on a singular PowerView Network, in specific cases where coverage needs to be extended significantly.
- To increase energy efficiency and sustainability, power your shades with the rechargeable battery wand. This power solution is not only environmentally friendly but also improves performance.
- Introducing PowerView+™ Automation. A premium control option in the PowerView family that utilizes a wired connection to both power and control PowerView window treatments.
- Utilize customized control of Hub and Repeater LED lighting in the app.

## Custom Control at Your Fingertips

### PowerView® App

- Operate your PowerView window coverings individually, by Room, or throughout the home using Scenes and Automations.
- Easy-to-use Dashboard keeps your favorite Scenes, Shades, and Automations at first glance.
- Use Automations to schedule Scenes to run at a specific time of day, or based on your local sunrise/sunset.
- Interactive Demo mode allows you to discover and explore the PowerView App right away.

### The Power of the PowerView Account

- Activate Scenes from anywhere in the world using RemoteConnect™.
- Receive low-battery notifications for Hunter Douglas shades.
- Synchronize with voice-controlled and other smart devices throughout your home.

## Connected Compatibility

PowerView® Automation is designed to smoothly integrate with other industry-leading technologies to deliver a truly connected home.

### The Future Is Now

- Consumers are already taking advantage of smart home systems and devices, from lights to thermostats, and now PowerView window coverings.
- PowerView Automation works with the Google Assistant, Amazon Alexa and Apple® HomeKit™ to control your shades with just your voice.
- Synchronize with IFTTT, Control4, Crestron and more to create a whole-home experience unique to your lifestyle.

## Artfully Designed Control

### PowerView® Scene Controller

- Easily activate favorite Scenes created in the PowerView App when your mobile device isn't handy.
- An intuitive solution for reliable and convenient control.

### PowerView® Remote

- Direct adjustment with a push of a button.
- Operate individual or groups of shades at once, and even create a Favorite to set the scene.
- Remote fits seamlessly in a PowerView® Pebble® or Surface Mount for convenient, child-safe operation.

### Express Your Style

- The PowerView Pebble offers hand-held operation in 10 on-trend colors.
- Use a PowerView® Surface in any of our three finishes for stable, wall-mounted control of your automated window coverings.

## Resources

Access a wealth of valuable information, all designed to help you better understand the ins and outs of PowerView® Automation.

- Visit the PowerView page in the U.S. at [www.hunterdouglas.com](http://www.hunterdouglas.com) or in Canada at [www.hunterdouglas.ca](http://www.hunterdouglas.ca).
- Visit The Learning Center at [thelink.hunterdouglas.com](http://thelink.hunterdouglas.com).
- Explore the Hunter Douglas Youtube channel at [www.youtube.com/hunterdouglas](http://www.youtube.com/hunterdouglas).
- Review the PowerView Automation Step-by-Step Guide—including comprehensive video tutorials and instructions.
- Access webcasts and online training.
- Take advantage of PowerView Automation Product Guides, order forms and more.
- The Link's easy-to-use iPad® mobile selling app is a great resource to discuss, quote and order PowerView products, on-the-go, blocking the competition and accelerating revenue.
- The PowerView Pro curriculum is a blended learning approach in which participants engage with online curriculum as well as a live class bringing results that increase efficiency, eliminate costly mistakes, and gain a clear path for increasing revenue streams for jobs requiring PowerView Automation installation.
