Window Shadings

HunterDouglas 

Silhouette® Window Shadings

For more than 25 years, Silhouette® Window Shadings have remained the leader in light diffusion.

- Transform harsh sunlight into beautiful natural daylight
- Preserve outside views while offering daytime privacy
- Provide UV protection and reflect solar heat
- Allow for perfect light control with elite operating systems
- Pair with Luminette® Privacy Sheers for The Whole House Solution™

Exclusive Operating Systems

Only Hunter Douglas offers unique, proprietary systems for years of dependable operation.

Roll Up and Away

Soft fabric vanes collapse to roll completely into the fabric-covered headrail.

Allow Precise Light Control

Vanes tilt to achieve just the right amount of natural illumination.

Eliminate Moiré Effect

Patented anti-moiré fabric technology ensures clearer outside view.

American Design and Craftsmanship

Silhouette® shadings are designed and custom-assembled in the USA.

Extraordinary Fabrics

Renders extraordinary results that allow superior view-through, privacy when needed, and enchanting light diffusion.

- Fabrics sourced from across the globe.
- Unique vane fabrics woven to be pliable and durable, a highly engineered process that takes years.
- Combined with two sheers and cleverly crafted to eliminate moiré.

Silhouette® ClearView® Shadings

When the view is most important.

- Specialized sheers increase view-through while providing UV protection for floors and artwork.
- ClearView® fabrics offer a white or black front sheer dependent on fabric and color.
- ClearView shadings feature an exclusive black rear sheer for better view-through.
- Available in both 3" and Quartette® 4" vane sizes in two fabrics.

Rechargeable Battery Wand

The rechargeable battery wand is a new power option for your Hunter Douglas window treatments with PowerView® Automation. It not only improves performance but also provides a more environmentally friendly power solution by eliminating the need to replace dead batteries. Never throw away a battery again!

This intelligently and brilliantly engineered battery solution allows for easy installation and removal when needing to be recharged. We have created our very own charging solutions to minimize charging time and maximize battery life.

Rechargeable Battery Wand

Product Components

- Rechargeable Battery Wand
- Rechargeable Battery Mount—Secures battery wand to the window treatment or mounting surface and connects shade to power
- Dual Charging Station—Charges up to two battery wands simultaneously
- Single Charger—16-foot cable allows you to recharge your battery wand without having to remove it from your window treatment.

Product Features

- One-year battery life*
- Rechargeable battery wand can be recharged 500 times.
- Two installation options: headrail mount or satellite mount
- Most extensive operating temperature range in the industry: -4°F (-20°C) to 176°F (80°C)
- Built-in safety feature shuts off battery when temperature in the window exceeds 176°F (80°C). Battery will turn back on once the temperature decreases to 158°F (70°C).
- Dual charging station will recharge both battery wands in 3 hours or less.
- Single charger will recharge battery wand in 2 hours or less.
- Option to purchase spare battery wands to ensure that consumers will always have a fully charged wand on hand.
- Retrofit existing Hunter Douglas shades via satellite mount, as the rechargeable battery wand utilizes the same power cable connection port as the alkaline battery wands.
- Satellite mounting allows for flexible installation behind the headrail (as mounting depth permits) or in any desired location.

**This estimation is based on an average size shade operated once per day (fully open and fully closed). Battery life may vary depending on shade size and usage.*

Operating Systems

PowerView® Automation

Transform the light and mood throughout your home with the push of a button or tap on a mobile device.

PowerView+™ Automation

Premium control option in the PowerView family that utilizes a wired connection to both power and control PowerView window treatments.

SoftTouch™ Motorization

Battery-powered operation with intuitive wand control.

UltraGlide®

Single retractable cord system for enhanced child safety provides convenient, self-lowering feature tilting to open position.

LiteRise®

Completely cordless operating system offers light control along with added child and pet safety benefits.

EasyRise™

Continuous cord loop system for easy operation.

Design Options

Silhouette® Duolite® Shadings

Combines a Silhouette shading with a room-darkening roller shade within the Quartette® headrail, creating the ultimate in light control and privacy.

Silhouette A Deux™ Shadings

Combines a Silhouette shading with a room-darkening roller shade which work independently of each other to control light and view-through.

Grandiose™ Shadings

Provides select 3" vane fabrics on Quartette 4" headrail to achieve longer drops. Available on EasyRise™ and hard-wired operating systems.

Two-On-One Headrail

Two fabric panels operate independently on one continuous headrail.

Additional Options

- Open or closed privacy arches
- Angles and other shapes
- Tilt only
