

Vignette®  
Modern Roman Shades

HunterDouglas 

## What makes a Vignette® Modern Roman Shade?

### Versatile

Two styles that roll or stack.

### Safe

No exposed cords on the front or back of any shade.

### Beautiful

4" full folds or 6" flat folds retain consistent appearance with every use.

### Durable

Finely crafted polyester fabrics offer low maintenance and are designed to provide years of reliable beauty.

### Innovative

Extensive, proprietary operating systems available only from Hunter Douglas.

### Quick

Easy ordering and fast delivery.

### Handcrafted Quality

Backed by the Hunter Douglas Lifetime Limited Warranty. Made in the USA.

## Vignette® Duolite®

Revolutionary, dual opacity system features a light-filtering or sheer flat fold shade along with a room-darkening back panel all in the same headrail.

- NEW for Fall 2020: Sheer Back Liner is now available with any face fabric for additional light control options.
- Fabric rolls off the back of the rotator rail for maximum privacy and light control.
- Exclusively features the 6" flat fold.
- Sheer or light-filtering 6" flat fold shade along with a room-darkening back panel on a single roller
- Offered exclusively with Rolling Style PowerView® Automation
- Available in all fabrics and colors including The Alustra® Collection
- Achieves larger sizes than standard room-darkening flat fold shades.

## Stacking Style

## Rolling Style

## Style Comparison

### Stacking Style

- NEW for Fall 2020: Updated Stacking Style headrail provides minimized top fold cord impressions and maintains a minimal footprint. Each system features elevated touchpoints and ease of operation.
- Available only in 4" full fold
- Shade stacks neatly like a typical Roman shade.
- Shade remains uniformly stacked when lowered.
- Features the low-profile headrail for shallow mounting depths
- Exclusive Top-Down/Bottom-Up option
  - Shades lower from the top down or the bottom up.

### Rolling Style

- Available in 4" full fold and 6" flat fold
- Shade rolls into headrail for unobstructed view.
- When fully lowered, shade shifts back toward the window for added privacy.
- Exclusive Duolite® dual opacity option
  - Shade rolls off the back when lowered.

## Rolling Style

Fabric rolls off the front of the rotator rail and kicks back when fully lowered for enhanced privacy and minimized light gap.

- Only Roman shade without any internal lift cords
- Shade rolls into headrail to maintain a consistent look regardless of position in the window.
- Fabric-covered headrail allows shade to roll up and away for unobstructed view.

## Stacking Style

Low-profile headrail design is perfect for shallow windows, sidelights and French doors.

- NEW for Fall 2020: Redesigned Stacking Style headrail offers improved appearance with minimized top fold cord impressions, while maintaining a minimal footprint. All operating systems now feature elevated touchpoints, and improved ease of operation.
- Only stacking Roman shade without exposed lift cords on the back of the shade, for a clean streetside appearance and enhanced child safety.
- Fabric stacks neatly when raised from the bottom up or lowered from the top down.
- Fabric-covered, low-profile headrail houses innovative operating systems.

## Operating Systems

### PowerView® Automation

- With PowerView Automation, experience the ability to simply transform the light and mood throughout your home with the push of a button or tap on a mobile device.
  - Stacking Style: Enhanced Motor Technology for advanced functionality with a seamless look

### LiteRise®

- Completely cordless operating system with added child and pet safety benefits
  - Rolling Style: features a spring-tensioned system
  - Stacking Style: improved ergonomic handle design, embossed Hunter Douglas logo, improved handle compatible with Optional Extension Pole

### UltraGlide®

- Single retractable pull cord system that remains the same length for enhanced child safety.
  - Rolling Style: features a retractable pull cord
  - Stacking Style: improved headrail insert design and ease of operation

### EasyRise™

- Continuous cord loop system for easy operation
  - Stacking Style: improved end cap and ease of operation, reduced light gap (Bottom-Up only)

## Options

### Two-On-One Headrail Option

Two shades operate independently while sharing the same headrail.

### Specialty Shapes

For stationary openings, non-operable shades remain in the lowered position.

### Accents by the Yard™

- All Vignette® fabrics including The Alustra® Collection are available as cut yardage.
- Perfect for draperies, pillows, beddings and coordinated accessories
- Wider widths enable a cost-effective way to coordinate Vignette shades with other furnishings.
- Easy to order at same price per yard regardless of fabric type or usable ordered width
