Product Care

Washing Instructions

1. Remove the fabric from the fabric vane clip.
2. Fold the fabrics and place them in a mesh laundry bag.
3. Wash with cold water; gentle cycle.
4. Do not add extra spin after wash. Remove the fabric.
5. Hang the fabrics to line dry, until the fabrics are slightly damp. Fan drying is acceptable.
6. Re-assemble all slats on the rail and leave the vanes open until completely dried.
This will also help avoid wrinkles.

Note: Do not use bleach or cleaning products that contain bleach.

Ironing or steaming

Use a steam iron on “Nylon” mode (around 200-220°F).

Wrinkles

Wrinkles may occur after washing or long transportation. If your shade is wrinkled, hang it for a few days. This will help minimize the wrinkles, allowing them to usually disappear naturally. You may choose to steam or iron the fabric panels in accordance with the care instructions below.
